Docket No. 98N-1265

Food and Drug Administration '99 MAR 24 A9:49

5600 Fishers Lane

Rockville, MD. 20857

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I do not want anyone Taking away my right to choose my own medications! I have used compounded medications that have helped me to feel better. They have relieved my symptoms and helped me to have better quality of life. These medications are not sold at my local pharmacy nor can I get them through the commercial pharmaceutical manufacturers.

I object to the definition of "inordinate amount," contained in the M.O.U. Anyone in any part of the country should be allowed to have the prescriptions they need if prescribed by their doctor.

"One size fits all" medicine does not work in my case and it should not be forced on me or anyone!

The government should not decide my fate!!!

Please fold, seal, and mail by March 22
